Projects

HiroAI AI Job Portal Application

July 2025 - November 2025

- Developed a job-matching web application featuring admin control, job listings, candidate and employer registration, resume upload, and AI-based assistance.
- Built using Java Servlets, JSP, DAO, and MySQL, with HTML, CSS, Bootstrap, and JavaScript for the frontend.

VoteX Backend API Application

July 2025 - September 2025

- Created a backend-only voting system with modules for user operations, voting flow, and result management using RESTful APIs.
- Implemented using Spring Boot, MySQL, and JSON-based APIs, thoroughly tested with Postman.

NeoTronix Full Stack Web Application

September 2024 - January 2025

- Built an e-commerce application supporting product browsing, cart, orders, and admin product management.
- Developed using JSP/Servlets, MySQL, and HTML, CSS, JavaScript, Bootstrap for the UI.

Personal Portfolio Website

August 2023 - February 2024

- Created a responsive portfolio website showcasing projects, skills, and contact features with Google Sheet-based form handling.
- Designed using HTML, CSS, JavaScript, and Google Apps Script/Sheets for backend form storage.
